The lashes are attached to your natural lashes, so there is no bulky strip or lash separation to be seen. 2D lashes are very comparable to classic lashes, just with some extra volume which may be just what you're looking for.

Brow Microblading

MPN-318

ONE WEEK

KIT INCLUDED

Microblading is a tattooing technique in which a small handheld tool made of several tiny needles is used to add semi-permanent pigment to the skin.

Microblading differs from standard eyebrow tattooing because each hairstroke is created by hand using a blade which creates fine slices in the skin, whereas eyebrow tattoos are done with a machine and single needle. Microblading is typically used on eyebrows to create, enhance or reshape their appearance in terms of both shape and color.
