Mega volume lashes are very similar to the traditional volume lashes we know. The difference between mega volume and traditional volume is how many lash extensions are being used to create the fan and the diameter of the extensions in the fan. A set of traditional volume lashes uses .07 extensions to create a fan with up to 5 lash extensions.

Mega volume sets use .05 and .03 lash extensions to create a fan with up to 16 lash extensions. With mega volume, you can apply up to 16 extensions on one natural lash. That is MEGA for sure.
