SPECIALIST

PROGRAM

NAIL CARE

SPECIALIST

TWO MONTH PROGRAM

A nail technician is a beauty specialist who is responsible for the grooming and appearance of a client's fingernails and toenails. He or she provides manicures, pedicures, nail shaping, cuticle grooming, callus removal, synthetic nail treatments, and application of nail polish for their clients. You will build residual revenues as your client list grows. What makes the difference is knowing how to give your clients an outstanding treatment! Our seasoned pros will walk you through the steps to create the perfect relaxing environment for your clients.

Acrylic Nail Extensions

NLS-128

ONE WEEK

KIT INCLUDED

Acrylic nail extensions are the most common type of nail extension that almost everyone knows about! The acrylic nail is made out of a monomer liquid mixed with a polymer powder to form a paste that is glued onto your natural nail and tip. This paste hardens over time and can last a good 3 to 4 weeks.

Acrylic extensions are suitable for women with brittle and weak nails. Acrylic nails have been around longer than their counterparts, so, most nail technicians at salons and spas have a lot of experience about how to apply and remove these nails.

- CONTRAINDICATIONS
- SPA SAFETY
- PRE & POST CARE
- BUSINESS BUILDING
- MARKETING & CLIENTELING
- REGULATIONS & INSURANCE
- PRODUCT SELECTION
- NAIL HEALTH & ANATOMY
- NAIL PREPPING PROCEDURES
- NAIL BRANDS & PRODUCT LINES

PHONE CALL Have a one-on-one phone meeting with one of our friendly admissions advisors and they will work with you to determine the optimal courseload for your education and the best financing options for you.

TAKE A TOUR Book a tour of our luxurious facilities and meet with one of our admissions advisors who will take you through the school, the medspa and sit down with you to review the best options to get your career started.

Gel Nail Extensions

NLS-130

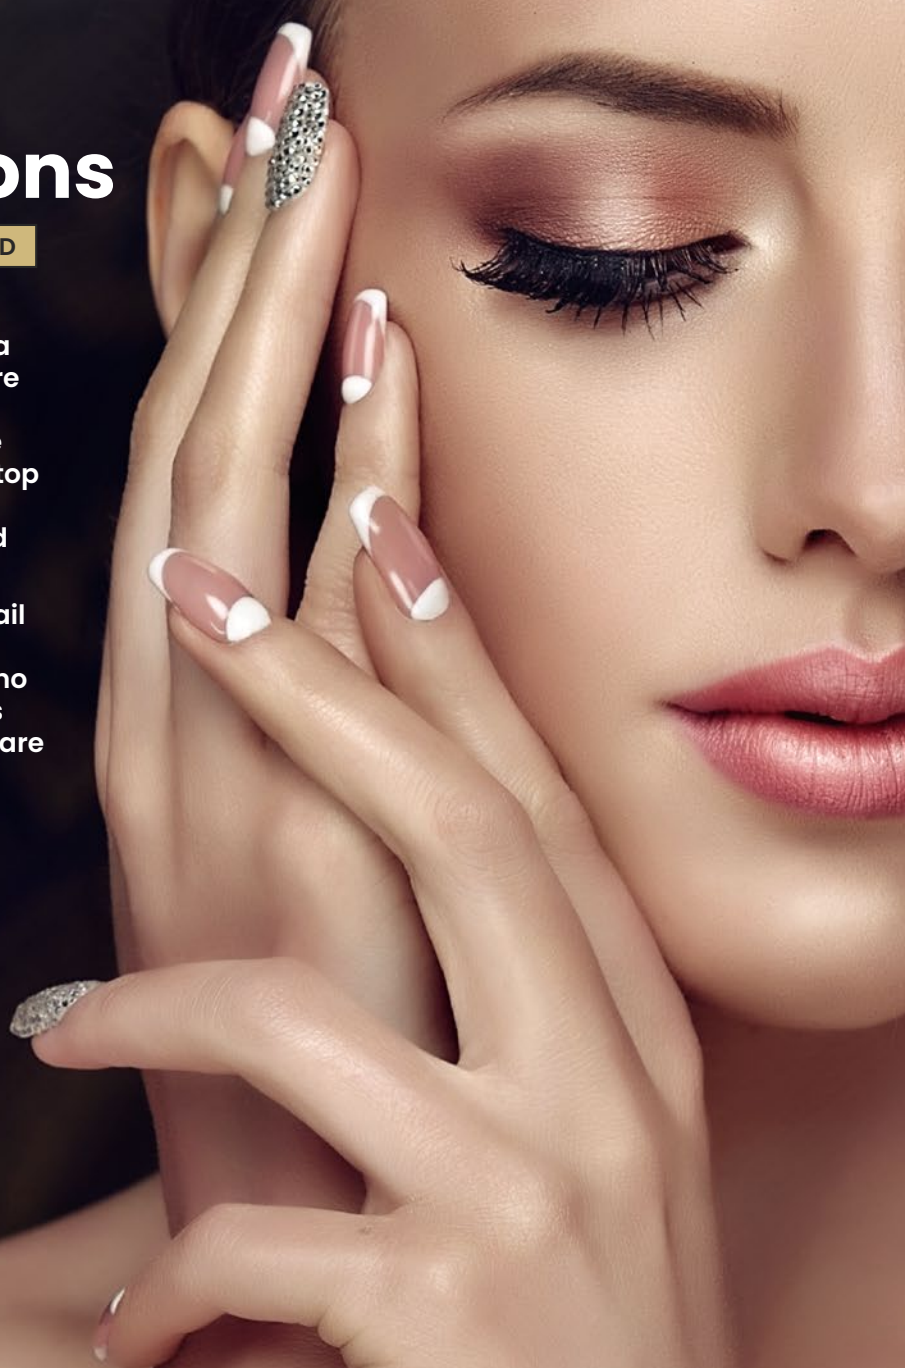

ONE WEEK

KIT INCLUDED

Gel nail extensions involve hard gel built on a natural nail and cured with UV light. There are two methods for gel extensions. The first involves adhering a form under the tip of the natural natural, then painting a hard gel on top and curing (or hardening) it with a UV or LED light. The second method uses a pre-shaped gel tip that's bonded to your natural nail.

These manicures are gentle to the natural nail and the polish stays intact on the nail for at least a couple of weeks with high shine and no cracking, peeling or chipping. If your client is concerned about nail health, gel extensions are definitely the way to go.

Spa Manicure & Pedicure

NLS-330

ONE WEEK

KIT INCLUDED

Manicures and pedicures have always been a mainstay of the beauty and cosmetic and spa industry. These treatments are very lucrative because almost all women and often men these days go for regular pedicures and manicures. So you will build residual revenues as your client book grows.

What makes the difference is knowing how to give your clients an outstanding treatment! One that stands out from the rest with ultimate relaxation, artful nail design and soothing massage techniques to keep them coming back time after time! Our seasoned pros will walk you through the steps to create that relaxing environment for your spa clients.

- ADVANCED PATTERNS & DESIGN
- CRYSTAL NAIL ART APPLICATION

Advanced Nail Art is a creative way to paint, decorate, enhance, and embellish the nails. It is a type of artwork that can be done on fingernails and toenails, usually after manicures or pedicures. A manicure and a pedicure are beauty treatments that trim, shape, and polish the nail. Often these procedures remove the cuticles and soften the skin around the nails. Types of manicures can vary from polish on natural nails, dipping powder, and acrylic nails.
