**MEDICAL
COSMETIC
COURSES**

(LPN, RN, PHD)

MEDICAL COSMETICS COURSE PROGRAMS

Our comprehensive group of medical aesthetic courses is designed for professionals looking to expand their expertise in cutting-edge treatments. These courses include:

- IV Vitamin Therapy: Learn the protocols for administering intravenous vitamins to enhance health and wellness.
- Deoxycholic Acid Fat Dissolving: Master the art of non-surgical body contouring by reducing localized fat deposits.
- PRP Microneedling & Injections: Explore platelet-rich plasma techniques for skin rejuvenation and targeted injections to promote healing and regeneration.
- Medical Hair Restoration: Gain skills in advanced therapies to combat hair loss and encourage regrowth.
- Poly-L-Lactic Acid (PLLA) for Face and Body: Discover the science and application of collagen-stimulating treatments to restore volume and enhance body contours.

MEDICAL PREREQUISITES AND COURSE

OPTIONS:

(PRICES LISTED WITHOUT ADDED GST)

- Spa Safety/Skin Anatomy (GEN-200): \$990
- Facial Nerve and Vein Anatomy (MED-416) \$990
- Deoxycholic Acid (Belkyra) Theory (MED -610) - \$990
- Deoxycholic Acid (Belkyra) Model Lab (MED -611) \$990
- Body / Nerve Anatomy (MED- 612) \$990
- IV Vitamins Theory (MED -613) \$990
- IV Vitamins Lab (MED - 614) \$990
- PRP Microneedling Theory (MED - 615) \$990
- PRP Microneedling Lab (MED-616) \$990
- PRP Injections (Theory / Lab) (MED-617) \$990

NEW FOR 2025

- Hair Restoration Theory (MED-618): \$990
- Hair Restoration Lab (MED-619): \$990
- Poly-L-Lactic Acid (PLLA) Theory
- Poly-L-Lactic Acid (PLLA) Safety
- Poly-L-Lactic Acid (PLLA) Anatomy
- Poly-L-Lactic Acid (PLLA) Face Lab
- Poly-L-Lactic Acid (PLLA) Body Lab

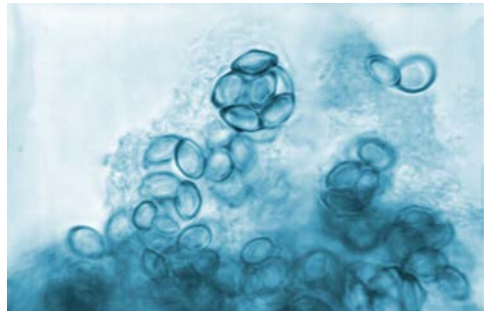

HOW TO APPLY:

- Set up a personal interview with one of our advisors by calling 1-866-330-9490.
- You will then receive a confirmation & be able to set up a personal tour of our institute. One of our advisors will walk you through the course/courses you are interested in taking, help you with your payment options and dates of training.

REQUIREMENTS:

- Highschool Diploma
- Minimum of 25 years of age
- Must hold valid valid (LPN, RN or PHD)

FACIAL NERVE AND VEIN ANATOMY FOR DERMAL INJECTIONS (MED-416): \$990.00

Gain a comprehensive understanding of facial nerve and vein anatomy in this essential course for dermal injection practitioners. Designed to enhance safety and precision, this course covers the key structures of the face, injection-safe zones, and techniques for minimizing risks of complications. Perfect for medical and aesthetic professionals, this course combines theoretical knowledge with practical application to ensure confident and effective treatments.

COURSE OUTLINE:

- Detailed exploration of facial nerve and vein anatomy.
- Identification of safe injection zones and high-risk areas.
- Techniques to minimize complications and enhance precision.
- Practical application for safe and effective dermal injections.
- Ideal for medical and aesthetic professionals seeking advanced anatomical expertise.

COMPLETION REQUIREMENTS:

- Completing all models with a passing grade
- Passing our written exam
- Demonstrates understanding & proper technique

Practicum hours to be discussed upon completion of the in-class portion.

WHAT'S INCLUDED:

- Online pre-study
- Hands on training with live models
- Certification upon completion

REQUIREMENTS:

- Highschool Diploma
- Minimum of 25 years of age
- Must hold valid valid (LPN, RN or PHD)

Please note if you have not completed your high school diploma please contact our admissions for assistance in registering for programs.

Eternal Beauty

DEOXYCHOLIC ACID (BELKYRA) THEORY (MED -610) - \$990

This comprehensive course provides an in-depth understanding of Deoxycholic Acid (Belkyra), a cutting-edge, non-surgical treatment for the reduction of submental fat (double chin) and localized fat deposits. Participants will explore the science behind fat cell destruction, patient assessment, treatment protocols, and safety considerations.

COURSE OUTLINE:

- Introduction to Deoxycholic Acid (Belkyra):
- Overview of Deoxycholic Acid and its role in fat metabolism.
- History and development of Belkyra as a cosmetic treatment.
- Mechanism of Action:
- How Deoxycholic Acid targets and destroys fat cells.
- Understanding the biological process of adipocyte (fat cell) destruction and elimination.
- Indications and Applications:
- Primary uses for submental fat reduction (double chin).
- Off-label uses for localized fat deposits in other areas.
- Patient Assessment:
- Identifying suitable candidates for treatment.
- Assessing submental and localized fat for optimal results.
- Contraindications and patient safety considerations.
- Treatment Protocols:
- Proper injection techniques and recommended dosage.
- Treatment planning: sessions, intervals, and expected outcomes.
- Safety and Risk Management:
- Common side effects and complications.
- Strategies for managing adverse reactions.
- Post-Treatment Care:
- Patient aftercare instructions for optimal recovery.
- Timeline of results and follow-up considerations

REQUIREMENTS:

- Highschool Diploma
- Minimum of 25 years of age
- Must hold valid valid (LPN, RN or PHD)

Please note if you have not completed your high school diploma please contact our admissions for assistance in registering for programs.

Eternal Beauty

DEOXYCHOLIC ACID (BELKYRA) LAB (MED -611) - \$990

Gain a comprehensive understanding of facial nerve and vein anatomy in this essential course for dermal injection practitioners. Designed to enhance safety and precision, this course covers the key structures of the face, injection-safe zones, and techniques for minimizing risks of complications. Perfect for medical and aesthetic professionals, this course combines theoretical knowledge with practical application to ensure confident and effective treatments.

COURSE OUTLINE:

- Detailed exploration of facial nerve and vein anatomy.
- Identification of safe injection zones and high-risk areas.
- Techniques to minimize complications and enhance precision.
- Practical application for safe and effective dermal injections.
- Ideal for medical and aesthetic professionals seeking advanced anatomical expertise.

COMPLETION REQUIREMENTS:

- Completing all models with a passing grade
- Passing our written exam
- Demonstrates understanding & proper technique

Practicum hours to be discussed upon completion of the in-class portion.

WHAT'S INCLUDED:

- Online pre-study
- Hands on training with live models
- Certification upon completion

REQUIREMENTS:

- Highschool Diploma
- Minimum of 25 years of age
- Must hold valid valid (LPN, RN or PHD)

Please note if you have not completed your high school diploma please contact our admissions for assistance in registering for programs.

Eternal Beauty

BODY / NERVE & VEIN ANATOMY (MED-612): \$990.00

This comprehensive course provides an in-depth understanding of body, nerve, and vein anatomy essential for safe and effective cosmetic medical treatments. Designed for medical professionals, the curriculum covers key anatomical structures, nerve pathways, and vascular systems to enhance precision and minimize risks during procedures such as dermal fillers, neurotoxin injections, and other aesthetic applications. Gain the knowledge and confidence to deliver exceptional results with a thorough foundation in anatomy tailored to the field of medical aesthetics.

COURSE OUTLINE:

- Comprehensive Anatomy Overview: Detailed study of key body structures relevant to cosmetic procedures.
- Nerve Pathways and Functions: Identification and understanding of nerve locations to ensure safe and effective treatments.
- Vascular Systems: Exploration of vein anatomy to minimize the risk of vascular complications.
- Injection Safety Techniques: Strategies for avoiding nerve and vascular damage during cosmetic applications.
- Applied Anatomy for Aesthetic Treatments: Focused guidance on areas such as the face, neck, and hands for precise outcomes.
- Hands-On Practice and Case Studies: Practical application of anatomical knowledge in cosmetic medical scenarios.

WHAT'S INCLUDED:

- Online pre-study
- Hands on training with live models
- Certification upon completion

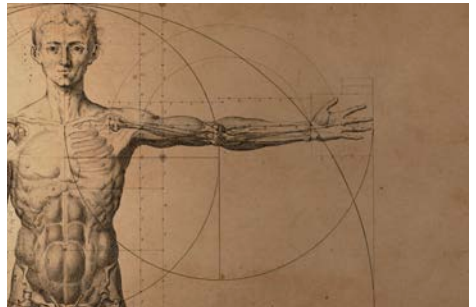

REQUIREMENTS:

- Highschool Diploma
- Minimum of 25 years of age
- Must hold valid valid (LPN, RN or PHD)

Please note if you have not completed your high school diploma please contact our admissions for assistance in registering for programs.

Eternal Beauty

IV VITAMINS THEORY COURSE (MED-613): \$990.00

This comprehensive course provides an in-depth understanding of body, nerve, and vein anatomy essential for safe and effective cosmetic medical treatments. Designed for medical professionals, the curriculum covers key anatomical structures, nerve pathways, and vascular systems to enhance precision and minimize risks during procedures such as dermal fillers, neurotoxin injections, and other aesthetic applications. Gain the knowledge and confidence to deliver exceptional results with a thorough foundation in anatomy tailored to the field of medical aesthetics.

COURSE OUTLINE:

- Understanding IV Therapy: Overview of intravenous vitamin therapy and its applications in wellness and aesthetics.
- Physiology and Pharmacology: How vitamins and nutrients are absorbed and utilized through IV delivery.
- Safety and Contraindications: Identifying risks, contraindications, and proper patient screening.
- Preparation and Protocols: Step-by-step preparation of IV vitamin solutions and administration procedures.
- Emergency Protocols: Managing adverse reactions and ensuring patient safety during treatments.
- Legal and Ethical Considerations: Regulatory requirements and best practices for administering IV therapy.
-

WHAT'S INCLUDED:

- Online pre-study
- Hands on training with live models
- Certification upon completion

REQUIREMENTS:

- Highschool Diploma
- Minimum of 25 years of age
- Must hold valid valid (LPN, RN or PHD)

Please note if you have not completed your high school diploma please contact our admissions for assistance in registering for programs.

Eternal Beauty

IV VITAMINS MODEL LAB COURSE (MED-614): \$990.00

This hands-on lab course provides practical training in administering intravenous vitamin therapy on live models. Building on the foundational theory course, participants will gain experience in IV preparation, insertion techniques, patient care, and troubleshooting to ensure safe and effective treatments. This program is essential for those seeking to confidently perform IV vitamin therapy in a clinical or aesthetic setting.

COURSE OUTLINE:

- Patient Assessment and Preparation: Evaluate and prepare live models for IV vitamin therapy.
- IV Insertion Techniques: Hands-on practice with venipuncture and cannulation under professional supervision.
- Solution Preparation: Safe handling, mixing, and administration of IV vitamin solutions.
- Monitoring and Patient Care: Best practices for observing patient responses and maintaining comfort during treatments.
- Troubleshooting and Emergency Protocols: Address potential complications and ensure patient safety.
- Professional Workflow: Efficiently manage treatment setups, documentation, and follow-up care.

WHAT'S INCLUDED:

- Online pre-study
- Hands on training with live models
- Certification upon completion

REQUIREMENTS:

- Highschool Diploma
- Minimum of 25 years of age
- Must hold valid valid (LPN, RN or PHD)

Please note if you have not completed your high school diploma please contact our admissions for assistance in registering for programs.

Eternal Beauty

PRP MICRONEEDLING THEORY (MED-615): \$990.00

This comprehensive theory program introduces participants to the principles of Platelet-Rich Plasma (PRP) microneedling, a cutting-edge aesthetic treatment for skin rejuvenation. Participants will learn the science behind PRP, the benefits of combining it with microneedling, and the protocols to ensure safe and effective treatments. This course provides the foundational knowledge required before engaging in practical applications on live models.

COURSE OUTLINE:

- Introduction to PRP: Understanding the science and benefits of Platelet-Rich Plasma in skin rejuvenation.
- Microneedling Basics: Overview of microneedling techniques and their role in stimulating collagen production.
- Skin Anatomy and Physiology: Study of skin layers and how PRP and microneedling interact with dermal tissue.
- Preparation of PRP: Step-by-step process for extracting and preparing PRP for use in treatments.
- Safety and Contraindications: Identifying patient suitability and managing risks.
- Treatment Protocols: Best practices for combining PRP with microneedling for optimal results.

WHAT'S INCLUDED:

- Online pre-study
- Hands on training with live models
- Certification upon completion

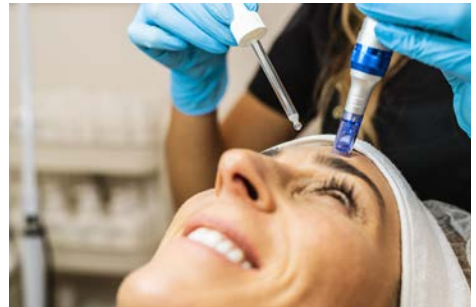

REQUIREMENTS:

- Highschool Diploma
- Minimum of 25 years of age
- Must hold valid valid (LPN, RN or PHD)

Please note if you have not completed your high school diploma please contact our admissions for assistance in registering for programs.

Eternal Beauty

PRP MICRONEEDLING MODEL LAB (MED-616): \$990.00

This hands-on lab course provides practical training in performing PRP microneedling treatments on live models. Building on the theoretical foundations, participants will gain experience in PRP preparation, microneedling techniques, and patient care to deliver safe and effective skin rejuvenation treatments. This program is designed for those seeking to confidently perform PRP microneedling in clinical or aesthetic settings.

COURSE OUTLINE:

- Live Model Preparation: Assess and prepare models for PRP microneedling treatments.
- PRP Extraction and Handling: Practical application of extracting and preparing Platelet-Rich Plasma.
- Microneedling Techniques: Hands-on experience with proper microneedling tools and techniques.
- Patient Comfort and Care: Ensuring patient safety and comfort during the procedure.
- Troubleshooting and Adjustments: Managing challenges during live treatments.
- Post-Treatment Care: Guidance on aftercare and follow-up for optimal results.

WHAT'S INCLUDED:

- Online pre-study
- Hands on training with live models
- Certification upon completion

REQUIREMENTS:

- Highschool Diploma
- Minimum of 25 years of age
- Must hold valid valid (LPN, RN or PHD)

Please note if you have not completed your high school diploma please contact our admissions for assistance in registering for programs.

Eternal Beauty

PRP INJECTIONS MODEL LAB (MED-617): \$990.00

(For Anti-Aging, Scar Revision, and Hair Loss)

This advanced hands-on lab program trains participants in administering Platelet-Rich Plasma (PRP) injections for anti-aging, scar revision, and hair restoration on live models. Building on theoretical foundations, the course emphasizes safe injection techniques, precision targeting, and patient care to deliver effective and transformative results.

COURSE OUTLINE:

- Live Model Preparation: Assess and prepare patients for PRP injection treatments tailored to their needs.
- Injection Techniques: Hands-on practice with PRP injection protocols for skin rejuvenation, scar revision, and hair loss treatments.
- Targeted Application: Learn to identify and treat specific areas for optimal anti-aging, scar healing, and hair restoration outcomes.
- Patient Safety and Comfort: Ensuring safe practices and maintaining patient comfort throughout the procedure.
- Troubleshooting and Adaptation: Manage complications and adjust techniques for diverse patient cases.
- Post-Treatment Protocols: Educate patients on aftercare and monitor results for maximum efficacy.

WHAT'S INCLUDED:

- Online pre-study
- Hands on training with live models
- Certification upon completion

REQUIREMENTS:

- Highschool Diploma
- Minimum of 25 years of age
- Must hold valid valid (LPN, RN or PHD)

Please note if you have not completed your high school diploma please contact our admissions for assistance in registering for programs.
